SUMMARY

Full Stack Developer with experience in React and ASP.NET Core using CQRS architecture. Worked on enterprise CRM systems supporting 12,000+ active users and 50+ clients. Skilled in production support, database management, debugging legacy code, and delivering scalable, reliable applications.

EXPERIENCE

- Eruna Technologies** Bengaluru, India
Junior Software Developer September 2025 – Present
 - Development & Code Maintenance:** Developing new modules while Maintained and debugged legacy code , improving system stability, performance, and feature coverage.
 - Database Operations:** Maintained Production, Staging, and Development databases, ensuring consistency and data integrity.
 - Production Support:** Resolved live production issues through log analysis and root-cause debugging.
 - Collaboration:** Worked closely with QA and support teams to deploy fixes and enhancements efficiently.
- Rooman Technologies** Remote
MERN-Stack Intern October 2024 - March 2025
 - Full-Stack Applications:** Designed and deployed 3+ MERN full-stack apps, boosting development speed by 40%.
 - Secure Authentication:** Executed JWT-based authentication and role-based access control.
 - Training:** Completed over 300 hours of structured training in frontend and backend web technologies.
- KodNest Technologies — Full Stack Java Trainee** Bengaluru, India
Trainee May 2025 - Present
 - Training:** Hands-on training in Core/Advanced Java, Spring Boot, MySQL, HTML, CSS, and JavaScript.
 - Strengthened problem:** Enhanced analytical and coding skills by solving 70+ challenges.

SKILLS SUMMARY

- Frontend:** React.js, HTML, CSS, Tailwind
- Backend:** ASP .NET Core, Node.js, REST API
- Architecture:** CQRS, MVC
- Databases:** MongoDB, PostgreSQL
- Cloud:** AWS EC2, AWS S3 (Bucket)
- Tools:** Git, Postman, Axios
- Others:** Debugging, Production Support, Code Review

PROJECTS

- CRM Management System**
React, ASP.NET Core, CQRS, SQL Server
 - Enterprise CRM Platform:** Developed and upheld a multi-client CRM system used by 12k+ active users across 100+ organizations.
 - Core Modules:** Debugging Attendance, Leave, and Shift Management modules for scalable architecture.
 - Production Support:** Handled production issues, database management, and code debugging to ensure system stability.
- Ruchi Hub** March 2025
Java, Spring Boot, Spring Security, JWT, MySQL
 - Programmed 12+ secure REST APIs:** Created with Spring Boot, supporting JWT authentication and scalable role-based access.
 - Adopted core features:** User login, restaurant CRUD, and order management, reducing response time by 30%.
- Real Estate Web Application** February 2024
React, Node.js, Express, MongoDB
 - Established a dynamic UI:** Developed 4+ filter and search components, enhancing property discoverability.
 - Upgraded and integrated authentication system:** Implemented JWT-based authentication for 100% secure user access to accounts and property listings.

EDUCATION

- Don Bosco Institute of Technology** Bengaluru, India
Bachelor of Technology - Computer Science and Engineering; GPA: 8.9 December 2021 - May 2025
Courses: Operating Systems, Data Structures, Analysis of Algorithms, Artificial Intelligence, Object-Oriented Programming (OOP) Concepts, Full stack with Django, Databases
